Annual Report Summary

accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

accessories for military cameras/photographic equipment, aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military image intensifier equipment, military aircrew life support equipment, military aircrew safety equipment, military camera equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military parachutist equipment

accessories for military image recording/processing equipment, aerial target equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic countermeasure equipment, components for military cameras/photographic equipment, components for military electronic equipment, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, accessories for military cameras/photographic equipment, equipment for the use of aerial target equipment, equipment for the use of electronic warfare equipment, equipment for the use of military aero-engine equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military training equipment, military aero-engines, military electronic equipment, military image recording/processing equipment, military training aircraft, military training equipment, technology for aerial target equipment, technology for electronic countermeasure equipment, technology for electronic countermeasure equipment, technology for military cameras/photographic equipment, technology for military electronic equipment, technology for military training aircraft, technology for military training equipment

accessories for military image recording/processing equipment, aerial target equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic countermeasure equipment, components for guidance/navigation equipment, components for military image recording/processing equipment, components for military image recording/processing equipment, components for military electronic warfare equipment, equipment for the use of electronic countermeasure equipment, general purpose equipment, guidance/navigation equipment, military image recording/processing equipment, military training aircraft, electronic countermeasure equipment, technology for electronic warfare equipment, technology for military guidance/navigation equipment

accessories for military training equipment, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military training equipment, components for equipment for the production of military training equipment, components for equipment to function as military training equipment, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, equipment for the development of military software, equipment for the development of software enabling equipment to function as military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for software enabling equipment to function as military training equipment, technology for software enabling equipment to function as military training equipment

accessories for military training equipment, components for military support aircraft, components for military support aircraft, components for military training equipment, technology for military training equipment

airborne refuelling equipment, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for equipment, components for equipment for the production of combat aircraft, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, decoying/countermeasure equipment, aircraft, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, general military aircraft components, goods treated for signature suppression for military use, military aircraft head-up/down displays, military containers, military electronic equipment, military field generators, military equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, suppression fittings/coatings/treatments for military use, software for airborne refuelling equipment, software for decoying/countermeasure equipment, software for electronic warfare equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military infrared/thermal imaging equipment, software for military radars, technology for airborne refuelling equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, aircraft ground equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, recording/processing equipment, technology for military infrared/thermal imaging equipment, technology for military aero-engines

airborne refuelling equipment, attack alerting/warning equipment, components for airborne refuelling equipment, components for combat aircraft, components for electronic countermeasure equipment, components for launching equipment, engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military equipment for the production of combat aircraft, general military aircraft components, launching/handling/control equipment, military aircraft head-up/down displays, military cameras/photographic equipment, military equipment, military parametric technical databases, software for airborne refuelling equipment, software for electronic countermeasure equipment, software for equipment for the production of combat aircraft, software for military aircraft ground equipment, software for military aircraft head-up/down displays, software for military parametric technical databases, software for recognition/identification equipment, technology for military equipment, technology for combat aircraft, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, military image recording/processing equipment, technology for military parametric technical databases

airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of military aircraft, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military transport aircraft

aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft seals, aircraft valve seats, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aircraft, equipment, military parametric technical databases, software for environmental test facilities for military aircraft, engines, software for military aero-engines, software for military aircraft ground equipment, technology for military equipment for the production of military aero-engines, technology for military aero-engines, technology for military aero-engines

aircraft military communications equipment, components for airborne refuelling equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, military support aircraft, general military aircraft components, military aircraft head-up/down displays

aircraft military communications equipment, components for aircraft military communications equipment, head-up/down displays, components for military guidance/navigation equipment, components for military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft parachutes and equipment, signalling devices, software for aircraft military communications equipment, military aero-engines, software for military aircraft ground equipment, software for military aircraft helicopters, technology for aircraft military communications equipment, technology for military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for software for aircraft military communications equipment, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military guidance/navigation equipment, technology for software for military helicopters

aircraft military communications equipment, components for aircraft military communications equipment, head-up/down displays, components for military guidance/navigation equipment, components for military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft parachutes and equipment, signalling devices, software for aircraft military communications equipment, military aero-engines, software for military aircraft ground equipment, software for military aircraft helicopters, technology for aircraft military communications equipment, technology for military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for software for aircraft military communications equipment, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military guidance/navigation equipment, technology for software for military helicopters

aircraft military communications equipment, components for aircraft military communications equipment, life support equipment, components for military guidance/navigation equipment, components for military components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, equipment, technology for aircraft military communications equipment, technology for general military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military aircraft components

aircraft military communications equipment, components for aircraft military communications equipment, communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment

aircraft seals, guidance/navigation equipment, inertial equipment

artillery, components for artillery, components for naval gun installations/mountings, components for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery guns

assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms

attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, technology for military training aircraft, weapon control equipment

cable systems sensitive to eavesdropping, components for information security equipment, equipment for information security equipment, information security software, equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, information security equipment, software for information security software, technology for cable systems sensitive to eavesdropping, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security software, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment with reduced electromagnetic emanations, technology for software for information security equipment, technology for software for information security software

cable systems sensitive to eavesdropping, components for information security equipment, equipment for information security equipment, non-cryptographic information security equipment, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, information security software, software for non-cryptographic information security equipment, technology for generating spreading codes, technology for equipment with reduced electromagnetic emanations, equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for eavesdropping, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment

civil explosive detection/identification equipment

components for airborne refuelling equipment, components for aircraft cannons, components for military aircraft, components for military aircrew life support equipment, components for military aircrew safety equipment, components

components for airborne refuelling equipment, components for combat aircraft, components for combat aircraft, components for military containers, components for military guidance/navigation equipment, components for military aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of military aircraft head-up/down displays, general military aircraft components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft, components, software for general military vehicle components, software for general naval vessel components, military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the operation of military aircraft, general military aircraft components, unfinished products for general military vehicle components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned aircraft

components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons

components for aircraft military communications equipment, components for combat aircraft, components for military aircraft, displays, components for military helicopters, components for military support aircraft, components for general military aircraft components

components for aircraft military communications equipment, components for military communication equipment, equipment for the production of military communication equipment, equipment for the use of military communications equipment, military communications equipment, software for military communications equipment, technology for aircraft military communication equipment, technology for military helmets

components for all-wheel drive vehicles with ballistic protection

components for combat aircraft

components for combat aircraft, components for combat helicopters, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for ground equipment, components for military aircrew life support equipment, components for military aircraft for military parachutes and equipment, components for military support aircraft, components for military equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, production of military support aircraft, equipment for the production of military training aircraft, equipment for helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft components, military aircraft ground equipment, military aircrew life support equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military equipment for training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, military aircrew life support equipment, technology for military aircrew safety equipment, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft

components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military training aircraft, components for naval engines, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for military training aircraft, equipment for the use of naval engines, general military aircraft components, general military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircrew life support equipment, technology for the use of military support aircraft, technology for equipment for the use of military training aircraft, general military aircraft components, technology for general naval vessel components, technology for technology for military aircrew life support equipment, technology for military helicopters, technology for technology for naval engines

components for combat aircraft, components for military aero-engines

components for combat aircraft, components for military aero-engines, components for military support facilities for military aero-engines, equipment for the production of military aero-engines, military aero-engines, technology for military aero-engines, unfinished products for military aero-engines

components for combat aircraft, components for military aircraft ground equipment, equipment for the production of combat aircraft

components for combat aircraft, components for military communications equipment, components for military support aircraft

components for combat aircraft, components for military support aircraft, components for military training aircraft

components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment

components for decoying/countermeasure equipment, components for demolition charges/devices, components for pyrotechnic materials, components for launching/handling/control equipment for munitions, components for munitions/ordnance detection/disposal equipment, decoying/countermeasure equipment, demolition charges/devices, launching/handling/control equipment for munitions, military equipment for initiating explosions, training depth charges, training devices containing military pyrotechnic materials

components for devices for initiating explosives, components for military equipment for initiating explosives, decoying/detection/disposal/jamming equipment, equipment for the use of military equipment for initiating explosives, improvised explosive device decoying/detection/disposal/jamming equipment, military training equipment
components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment for the use of artillery, software for equipment for the use of artillery, software for general naval vessel components, equipment for the operation of military aircraft in confined areas, technology for equipment for the use of military aircraft in confined areas, technology for equipment for the use of military electronic equipment
components for equipment for the production of military support aircraft, components for military support aircraft, technology for equipment for the production of military support aircraft, technology for military support aircraft
components for equipment for the use of air-to-surface missiles, components for launching/handling/control equipment for air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for air-to-surface missiles, technology for equipment for the use of air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for military training equipment
components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for rockets, technology for military electronic equipment, technology for rangefinding equipment
components for gun mountings, components for weapon sights, weapon sights
components for inertial equipment, inertial equipment, software for inertial equipment, software for training equipment for inertial equipment
components for information security equipment, information security equipment, information security equipment, information security equipment, technology for information security software
components for information security equipment, information security equipment, software for information security equipment
components for launching/handling/control equipment for missiles, components for military aircraft ground equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for training air-to-air missiles
components for military aero-engines, components for military aircrew safety equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military training aircraft, general military aircraft components, military aircraft components, guidance/navigation equipment, technology for general military aircraft components, technology for military aircraft components, technology for military aircrew safety equipment, technology for military guidance/navigation equipment
components for military aero-engines, environmental test facilities for military aero-engines, equipment for military aero-engines, military aircraft ground equipment, production facilities for military aero-engines, software for military aero-engines, products for military aero-engines
components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment
components for military communications equipment, equipment for the use of military communications equipment, equipment for the use of military communications equipment, software for military communications equipment, technology for military communications equipment
components for military electronic equipment, components for military field engineer equipment, components for munitions/ordnance detection/disposal equipment, general military vehicle components, military electronic equipment, military electronic equipment, munitions/ordnance detection/disposal equipment, technology for military electronic equipment, technology for military vehicles, technology for munitions/ordnance detection/disposal equipment

components for military electronic equipment, components for military field engineer equipment, components for munitions/ordnance detection/disposal equipment, general military vehicle components, military electronic equipment, military electronic equipment, technology for munitions/ordnance detection/disposal equipment, technology for military electronic equipment, technology for military vehicles, technology for munitions/ordnance detection/disposal equipment
components for military electronic equipment, general military aircraft components, military electronic equipment, military electronic equipment, technology for general military aircraft components, technology for military aircraft components
components for military infrared/thermal imaging equipment, components for periscopes, components for periscopes, infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, technology for weapon night sights
components for military radars, equipment for the use of military radars, software for military radars, software for military radars
components for military support aircraft
components for military support aircraft
components for military support aircraft
components for military support aircraft, components for military training equipment, software for military support aircraft, technology for military training equipment
components for military support aircraft, equipment for the production of military support aircraft, equipment for the production of military support aircraft, technology for equipment for the production of military support aircraft, technology for equipment for the production of military support aircraft
components for military support aircraft, equipment for the production of military support aircraft, equipment for the production of military support aircraft
components for submersible vehicles, frequency generators, high energy capacitors, imaging camera equipment, syntactic foam
corrosion resistant chemical manufacturing equipment
counter-improvised explosive device equipment
counter-improvised explosive device equipment
equipment for intrusion software, software for intrusion software, technology for equipment for intrusion software
general purpose integrated circuits, technology for general purpose integrated circuits
heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater imaging cameras
information security equipment
information security equipment
information security equipment
information security equipment, information security software
information security software
information security software
military support aircraft
NBC protective/defensive equipment, civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, military communications equipment, rebreathing swimmers
NBC protective/defensive equipment, components for NBC protective/defensive equipment, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military training aircraft, components for submarines, components for tanks, components for general naval vessel components
software for air-to-surface missiles, technology for air-to-surface missiles
software for inertial equipment
Software for modelling/simulating military operation scenarios, command communications control and military training aircraft, launching/handling/control equipment for munitions, military software, military communications equipment, software for military training aircraft, software for military training equipment

Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluation equipment, aircraft cannon ammunition, aircraft cannons, aircraft military communications equipment, components for military support aircraft, components for military training aircraft, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging equipment, infrared/thermal imaging equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of air launched rockets, equipment for the use of air-to-air missiles, equipment for the use of developmental missile components, equipment for the use of fire location equipment, multi-role missiles, equipment for the use of surface launched rockets, equipment for the use of surface launched missiles, fuze setting devices, general military aircraft components, goods treated for signature suppression, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft safety equipment, military cameras/photographic equipment, military communication equipment, generators, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, parametric technical databases, military radars, military scenario simulation equipment, military training equipment, fittings/coatings/treatments for military use, software for combat aircraft, software for determining the effectiveness of military support aircraft, software for military training aircraft, targeting equipment, technology for military support aircraft, technology for military training aircraft, test models for military support aircraft, test models for military training aircraft, unfinished products for military support aircraft, unfinished products for military training aircraft

Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluation systems for parachuted loads, components for airborne refuelling equipment, components for automated launching/handling/control equipment for munitions, components for military aero-engines, components for military safety equipment, components for military parachutes, components for military training aircraft, countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, environmental test facilities for military aircraft, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military image intensifier equipment, military image recording/processing equipment, military image recording/processing equipment, military mobile repair shops and related equipment, military parachutes, military parametric technical databases, attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for fire location equipment, technology for launching/handling/control equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for guidance/navigation equipment, technology for military image recording/processing equipment, technology for military training aircraft, technology for military training equipment, technology for production installations for military training aircraft, weapon control equipment, test models for military training aircraft, unfinished products for military training aircraft
